

## WILD'S PARQUET INLAID LINOLEUM

brings an air of refinement, repose and perfect cleanliness to the comfort haven of the home. There is no danger to young or old from slipping on hardwood floors; no noise; no need of costly refinishing; and no annual upheaval at spring-cleaning time as with carpets.

WILD'S PARQUET INLAID LINOLEUM is noiseless, elastic, and in appearance closely resembles wood parquetry. It is perfectly sanitary, the permanent presence of linseed oil being actually destructive to germ life. It has a safe stepping surface; is easily cleaned with soap and water; is less expensive than hardwood; never requires refinishing and will wear for years, as the patterns are inlaid, the colors being the same right through. It is suitable for other rooms, likewise for offices, public buildings, etc.

We make a specialty of Wild's Linoleums—have handled them ever since our firm has been established. We carry them in both Inlaid and Printed Goods, the latter as low as 55c and 65c per square yard.

We are now showing our fall line, the largest single order we ever placed—did this to take advantage of price. Since placing our fall order, there have already been two sharp advances on account of the strong advances in burlaps.

We are laying this week in the new Barre City Hospital several hundred yards of Wild's Jasper Effect Inlaid Linoleum. This Linoleum is cemented to a concrete floor.

Have your linoleum cemented down.

Attractive little lapel pins bearing the French tri-color, the British Union Jack and the Belgian flag are finding a ready sale about town through the efforts of a local committee of Scots that has taken in hand the work of raising a fund in Barre to be added to the British imperial relief fund. A number of men who came together last week have interested themselves in the project to the extent of forming a committee, many of their number having been active in raising the tobacco fund for Scottish soldiers last winter. A charge of fifty cents is affixed to each badge and the response to the committee's appeals for patronage has been altogether satisfying. The money goes toward the maintenance of widows and orphans rendered destitute by the European war.

A scarifier, a device that may be attached to the street roller and itself infinitely less menacing than its name would indicate, has been purchased by the city street department, money for the purchase having been authorized by the city council at its regular meeting Tuesday night. The price paid is \$372 and the device is to be furnished by the New York Port Huron Co. As soon as it arrives from Milwaukee, Wis., it is to be put in operation on the city streets. Primarily the scarifier is designed to perfect the uniform grading of highways. It can be adjusted to any grade desired and operated with ease on the heels of the oil sprinkler. The aldermanic street committee figures that the device can perform work that a number of laborers are ordinarily expected to do and with more satisfactory result.

A "water wagon" drive on Barre and environs is planned by the firing squadron of New England for the late days of August, and with the appearance in the city of R. E. Herick, a Boston organizer, plans for the big temperance rally in the city are back of the campaign, although the squadron's attack is to be pursued along lines that are neither denominational nor political. The New England squadron is an offshoot of the firing squadron of America, which made port in Barre last winter, although the parent organization holds its meetings in the churches and the smaller squadron usually engages a public hall. Some of the most eloquent advocates of a saloonless, liquorless America in the East are scheduled to take part in the drive and with the aid of local men who are putting their shoulders to the wheel, the campaign movement is not to suffer through lack of volition.

Hotel Barre did a capacity business last night, every room in the house having been reserved for guests, who came by auto and train. More than ninety persons were accommodated in the dining-room during the supper hour and there was a large registration of out of town guests to-day. Among the motor arrivals at the hotel were: Dr. and Mrs. J. C. French of Webster, N. D., and Miss McKee of Liverpool, England; Mr. and Mrs. C. E. Sewell, who are passing the summer at Dixville Notch, N. H.; Edward F. Stevens of Boston, architect of the new City hospital, who came to Barre yesterday from his summer camp in Lancaster, N. H.; Mr. and Mrs. M. Scott of Bradford, Mass., Mr. and Mrs. M. H. Kidder and Donald Cross of Burlington, who were on their way to the White Mountains; Mrs. George Gates of Chicago, Mr. and Mrs. H. W. Carter, George D. Carter, Mr. and Mrs. F. F. Thresher and R. G. Stebbins of Barre; Dr. and Mrs. L. D. Ritchie of Wilmington.

To the Public.

Having nearly reached the middle of the 25th season at Berlin pond, I desire once more to thank the public for their long-continued patronage. In the grove we have seven cottages for rent by the day, week or season. Table board given to campers and transients, also board and room furnished at the house. Boat livery connected with the place. Having taken my son into the business, we very respectfully sign ourselves,  
C. H. Stewart & Son,

Annie Corey, the eldest daughter of Mr. and Mrs. Peter Corey of Prospect street, is making gradual gains toward recovery from a very painful accident which befell her while playing with a number of young people on the banks of the Stevens branch yesterday. The children were busily engaged in a game of tag when the Corey girl wandered too near the edge of a precipitous bank overlooking the branch. Before any of her playmates could lift a finger in her behalf, the little girl had disappeared over the bank. She was found lying near the edge of the water with a deep bruise in the head. The wound bled profusely and for several moments after the girl had been removed to her home she was unconscious. Dr. Joe W. Jackson was called and he took several stitches in closing the wound. Had the child fallen over the bank at a point a few yards up the stream she would have dropped into ten feet of water.

A desultory fall of rain that brought anything but joy to some few hundred baseball fans and players at the Berlin street grounds yesterday afternoon prevented the business men and professional men from going more than five innings in their struggle for supremacy. That the business men won the abbreviated contest by a 5 to 6 score was due principally to the fact that they got the jump on their opponents, although no one who sat through five innings of very moist playing would have ventured to predict the outcome. "Spider" Wishart and C. Zanloni did the battering work for the winners and they were opposed by an artillery squad consisting of William Wishart, Max Fisher and James S. Milne. Prior to the opening clash, a band marshaled by Kenneth Gale marched from the old city building down North Main street to the scene of the conflict. Between innings the musicians enlivened the game with national airs. The game was played for the benefit of the playgrounds and a tidy sum was realized. Interest now centers on the coming skirmish between the Goose Green, a team of players who have bolted organized baseball, and who have challenged the winners of yesterday's game. The contest will probably be staged next week.
